Collaboration & communication: requirements

Until recently, collaboration & communication meant...
Collaboration & communication: requirements

Today, everyone relies on...

→ need for **online** collaboration & communication
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:

work even when distant

→ Internet-based
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:
work in a technology-neutral way
→ any web-browser
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:
know other users within their working group(s)
→ who’s who? who does what?
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:

- share information: documents, ideas, contacts,…
- multiple tools, structured/unstructured contents
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:
search for information (pull) and be notified when new information is available (push)
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:

retrieve information in a project-centric way

→ issue- or topic-based workspace
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:
read / add / modify information in a structured way
→ need for metadata and for a filing plan
Collaboration & communication: requirements

What are the minimum requirements of an online collaboration & communication platform?

Users must be able to:

**Address:**
- other users in the organization itself (Intranet),
- persons outside of the organization (Extranet),
- or anonymous visitors (Website)
Additional requirements

Additional requirements, not specifically related to collaboration and communication needs:

- security needs: authentication, access rights
- multilingual capacities
- user-friendliness, even at administration level
- audit capacities: every action must be logged
Result

Based on these requirements, I.R.I.S. created

I.R.I.S. DocShare

its online collaboration and communication platform
Agenda

• Collaboration and communication: requirements
• I.R.I.S. DocShare fundamentals
• A zoom on key modules
• Live demo
• Conclusion
What is I.R.I.S. DocShare?

I.R.I.S. DocShare is an online collaborative suite

**Suite**
- 10+ integrated & optional modules:
  - Document Library (EDM)
  - Contact management (CRM)
  - Website & Portal Builder (CMS)
  - eNews
  - Event management
  - Forums
  - Multimedia gallery
  - RSS channels,…

**Online**
- 100% web-based, accessible via Internet

**Collaborative**
- Mission: ‘Help people to better work together’
Logical architecture

- **Intranet/Extranet**
  - Staff, customers, members, partners...
  - Admin: users, access rights, parameters, audit, ...
  - I.R.I.S. DocShare interface

- **Public website**
  - Customers, members, anonymous visitors...
  - Website & Portal Builder

- **Services by I.R.I.S.**
  - Deployment
  - Support & maintenance
  - Hosting
  - Software-as-a-Service

- **Display information**
- **Manage information**
- **Manage system**

- **Document Library**
- **Contact management**
- **Event management**
- **Survey management**
- **Forums**
- **eNews**
- **eCommerce**
- **Multimedia gallery**
- **RSS channels**
- **Collaborative workspace**
- **Multisite module**
- **Multilingual support**
- **My DocShare**
- **Advanced statistics**
Multiple modules, one common platform

Multiple modules, one common platform
## Principles

<table>
<thead>
<tr>
<th>Principle</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Out of the box</strong></td>
<td>Short, inexpensive and straightforward deployment</td>
</tr>
<tr>
<td><strong>Web-based</strong></td>
<td>Accessible from any computer: an internet connection and a browser are enough</td>
</tr>
<tr>
<td><strong>User-friendly</strong></td>
<td>Easy to use and administrate, no IT profile needed</td>
</tr>
<tr>
<td><strong>Mature</strong></td>
<td>Dozens of successful projects, proven track record, stable and reliable solution</td>
</tr>
<tr>
<td><strong>Secure</strong></td>
<td>Solid authentication and access right mechanisms protect your information</td>
</tr>
<tr>
<td><strong>Multilingual</strong></td>
<td>Multilingual interface, contents and metadata</td>
</tr>
<tr>
<td><strong>Evolutive</strong></td>
<td>A modular solution, able to face your growing needs</td>
</tr>
<tr>
<td><strong>Integrated</strong></td>
<td>Intranet, extranet, website, ECM, CMS... They all work together within one system</td>
</tr>
<tr>
<td><strong>Customisable</strong></td>
<td>Adapted to your situation through parametrisation, without further development</td>
</tr>
<tr>
<td><strong>Audit &amp; statistics</strong></td>
<td>Keep an eye on all activities: logon, read, edit, add, delete, visits, etc.</td>
</tr>
<tr>
<td><strong>Template-based</strong></td>
<td>Pre-defined and customisable entry forms to save time and avoid mistakes</td>
</tr>
<tr>
<td><strong>Indexed</strong></td>
<td>Information is always meta-tagged and indexed, thus easily selectable and retrievable</td>
</tr>
<tr>
<td><strong>Full service</strong></td>
<td>I.R.I.S. provides comprehensive services: support &amp; maintenance, hosting, or even SaaS</td>
</tr>
</tbody>
</table>
A modular solution for an evolutive platform

Surveys - Invoicing system

Invoicing system (Opened)

Dear partners and colleagues,

We, at Concept Construct, are always looking for saving time and improving our service. That's why we are considering to adopt a new electronic invoicing procedure. Before moving forward, we would like to know more about what you can or can't do. Many thanks in advance for your help.

The Concept Construct accountancy team

Questions (4 found)

1. Which software do you use?
   - [ ] Sage Bab Software
   - [ ] SAP
   - [ ] A/P Invoice Management
   - [ ] Other (please describe below) <Free answer>

2. How many invoices do you send to us and/or receive from us every year?
   <Free answer>

3. Do you already use an automatic electronic system with other customers?
   - [ ] Yes
   - [ ] No

IRISLink 2012
Dear friends and partners,

This Concept Construct newsletter will focus on exciting technologies from the US and a new breath in the construction sector. Also, do not forget our annual cocktail on June 26; you are most welcome. We hope you will enjoy reading this newsletter. We welcome your suggestions on newsletter@conceptconstruct.be.

Yours sincerely,
The Concept Construct team

Meeting at Concept Construct
The Executive Committee of Concept Construct is meeting on a weekly basis to follow-up projects and discuss major orientations and strategies. (2007-11-27)

Working at Concept Construct
Our Vice-President, John Verhaaren, is preparing his contribution to the next Concept Construct executive meeting. (2007-11-27)

Belpharma
Belpharma European coordination center, located in the Brussels area.

Invitation CXO

P&H headquarters in Bruizeel-Loo
The construction of this building has been entirely coordinated and realised by Concept Construct. The P&H Group wanted it both classical and innovative from the technological point of view.

World Chemical Company building
Built in 2005, made of steel and glass, with concrete structure, 15,000 m² including garage and warehouse.
### eCommerce

Welcome to the website of Concept Construct

Concept Construct is a European construction company specialized in civil engineering, industrial buildings, environmental projects, tunnel constructions, office & apartment buildings and renovation works.

The professional knowledge and the experience of staff and manpower guarantees an adequate and efficient execution of these construction works. This dynamic and qualitative approach is highly appreciated by the clients of Concept Construct.

The know-how that Concept Construct accumulated in the past decades is applied in new fields such as the construction of power stations and incineration plants. Difficult and complex concrete works are executed to the utmost satisfaction of the clients.

The objectives of Concept Construct are quality, respect for the cost of the construction contract and respect for the time schedule of execution.
